

CALL FOR PAPERS

ICNE 2020
Oct 22-23, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNE 2020 : International Conference on Nanoelectromechanics in Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanoelectromechanics in Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanoelectromechanics
Nanoelectromechanics and industrial applications
Nanoelectromechanics in electrical engineering
Nanoelectromechanical motion

Nanoelectromechanics in engineering
Nonlinear nanoelectromechanics
Quantum confinement and nanoelectromechanics
