

CALL FOR PAPERS

ICBI 2020
Oct 29-30, 2020
Los Angeles, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBI 2020 : International Conference on Biotechnology and Insects is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biotechnology and Insects. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Insect biotechnology
- Advances in insect biotechnology
- Insect biotechnology and applications
- Alternative model host for human pathogens
- Models in biomedical research
- Therapeutic potential of anti-microbial peptides from insects
- Modern biosurgery
- Insect-associated microorganisms as therapeutic potential
- Potential pharmaceuticals from insects
- Insect biotechnology in plant protection
- Insect antimicrobial peptides against plant pathogens
- Protection of crops against insect pests
- Insect transgenesis and the insect technique
- Industrial applications of insect biotechnology
- Insect cells for heterologous production
- Biotechnologies based on silk
- Biosensors on insect olfaction
- Insect-inspired technologies
- Insects as a source for biomimetics
