

CALL FOR PAPERS

ICDCES 2020
Oct 29-30, 2020
Los Angeles, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDCES 2020 : International Conference on Dispersion Chemistry in Environmental Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Dispersion Chemistry in Environmental Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Dispersion chemistry
Thermodynamics and dispersion chemistry
Colloid and surface chemistry
Colloidal particles, nanoparticles and fluids
Soil colloidal chemistry

Dispersion chemistry systems, emulsion science and technology
Colloidal chemistry in pharmacology and medical sciences
The applications of dispersion chemistry in industrial applications
Dispersion chemistry in environmental science and pollution treatment
