

CALL FOR PAPERS

ICDDDSE 2020
Oct 29-30, 2020
Los Angeles, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDDDSE 2020 : International Conference on Drug Design, Development and Side Effects is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Drug Design, Development and Side Effects. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bio-pharmaceutics and
pharmaceutics
Pharmacy practice
Pharmaceuticals testing
Pharmaceutical chemistry
Pharmaceutical crops
Pharmacology and antibiotics
Drug discovery and development
Protein-protein interactions as
drug targets
Adrenergic drugs
Anesthesia pharmacology
Application of membrane protein
structure determination and its
applications in drug design
Chemotherapy and other
anti-neoplastic drugs
Clinical pharmacology and pharmacy

Design and optimization of dosage
regimens
Drug development
Drug metabolism and interactions
Nursing pharmacology
Personalized medicine
Pharmacogenetics and
pharmacogenomics
Serotonin pharmacology
Characterization of drugs and
bio-therapeutics
Applications of ADME in early drug
discovery
Rapid methods to assess quality and
stability of bio-therapeutics
Cholinergic drugs
Pharmacokinetics and
pharmacodynamics
protein interactions
as drug targets
Adrenergic drugs
