

CALL FOR PAPERS

ICEEB 2020
Oct 29-30, 2020
Los Angeles, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEB 2020 : International Conference on Energy Engineering and Biogas is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Engineering and Biogas. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Objectives of producing and using
biogas products
Applications and environment impact
of biogas
Industrial waste biogas
Large scale biogas production and
challenges
Biogas technologies
Market potential of biogas
reactors

Biogas from agriculture waste
Biogas production from algae
New and possible substrates for
biogas production
Measuring and upgrading biogas
environment
Investment and financing
Agricultural modernization
