

# CALL FOR PAPERS

**ICEECC 2020**  
**Oct 29-30, 2020**  
**Los Angeles, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEECC 2020 : International Conference on Ecology, Ecosystems and Climate Change is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecology, Ecosystems and Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agroecology, sustainable  
agriculture and rural development  
Biodiversity  
Biogeochemical cycling and  
ecosystem health  
Biosphere  
Climate Change  
Disaster Management  
Dynamics of Land cover change  
Ecohydrology and watershed  
management  
Ecological and Evolutionary  
Genomics  
Ecological degradation and  
ecosystem restoration  
Ecological Restoration  
Ecology and Ecosystems  
Ecology and Evolution

Ecology and Natural Resource  
Management  
Ecology in Freshwater Management  
Ecology, Ecosystems and Climate  
Change  
Ecosystem Habitats  
Ecosystem services and management  
Environmental Genomics  
Environmental stress and  
biodiversity conservation  
Freshwater Algae  
Global climate change and ecosystem  
adaptation  
Industrial ecology and green  
economy  
Landscape Conversation and  
sustainability  
Landscape pattern, process and  
sustainability  
Marine Ecosystems and Conservation
