

CALL FOR PAPERS

ICFPME 2020
Oct 29-30, 2020
Los Angeles, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFPME 2020 : International Conference on Forest Pathology, Mycology and Entomology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forest Pathology, Mycology and Entomology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Forest pathology
Impact of adverse environmental conditions on trees
Forest ecosystems
Effects of air pollution of forest health
The impacts of climate change impacts on forests
Forest health management
Forest pathological problems and their sources
Abiotic factors and biotic factors affecting forest health
Parasitic flowering plants
Hazard trees
Invasive species
Signs and symptoms of forest diseases
Pathology detection and prevention

Management and maintenance of forest diseases
Wood-decay diseases and fungi
Forest and shade tree pathology
Forest mycology
Wood microbiology
Forest pathogens
Fungi
Disease outbreaks
Genetic variability
Landscape fragmentation
Disturbances
Forest management
Alien species
