

CALL FOR PAPERS

ICRABEC 2020
Oct 29-30, 2020
Los Angeles, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRABEC 2020 : International Conference on Recent Advances in Biology, Environment and Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recent Advances in Biology, Environment and Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical, Environmental, and
Process Engineering
Environmental engineering and
sustainable development
Process design and optimization
Product innovation, development and
economics
Process intensification
Nanotechnology
New materials and structured
products
Intelligent polymers
Green organic synthesis routes
Process integration
Environmental engineering and
management
Sustainable and clean technologies
SCF as solvent substitutes

Chemistry and Chemical Engineering
Fundamentals
Chemical engineering fundamentals
Physical, Theoretical and
Computational Chemistry
Chemical engineering educational
challenges and development
Chemical reaction engineering
Chemical engineering equipment
design and process design
Thermodynamics
Catalysis and reaction engineering
Particulate systems
Rheology
Multifase flows
Interfacial and colloidal
phenomena
