

CALL FOR PAPERS

ICSAUDE 2020
Oct 29-30, 2020
Los Angeles, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSAUDE 2020 : International Conference on Sustainable Architecture and Urban Design Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Architecture and Urban Design Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban Planning and Urban Design for Sustainability

Urban sustainability and the move to low carbon development
Integrating of Renewable Energy Sources for Urban development
Eco-Design and Eco-Friendly Development
Eco-System and Biodiversity
Transit-Oriented Development:
Health and Walkability
Emergent Urban Patterns
Retrofitting the Existing City
Green Development and Construction Systems
Sustainable Housing and Compact Urban Neighborhoods
Traditional Neighbourhoods Design/Neotraditional Design
Eco-Mobility: Sustainability in Transport
Innovative Waste Management Concepts

Landscape Architecture, Productive Urban Landscape and Urban Farming
Design for Sustainability
Low Energy Architecture
Low Cost Building
Design with Nature
Sustainable Construction Materials, Systems and Technologies
Smart and Bioclimatic Architecture
Building Envelopes and Innovative Façade Systems
Sustainable Vernacular Architecture
Ecological, Social and Cultural Sensitivity
Sustainable Urban Design
Sustainable Design and Human Behavior: Changing Lifestyles
