

CALL FOR PAPERS

ICSCSRM 2020
Oct 29-30, 2020
Los Angeles, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCSRM 2020 : International Conference on Stem Cell Sciences and Regenerative Medicine is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Stem Cell Sciences and Regenerative Medicine. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Stem cell sciences	Metabolic regulation: cell-based assays
Stem cell engineering and technologies	Emerging technologies
Stem cell biology	Stem cells: current research
Stem cell and cancer cell therapy	Stem cell treatment
Stem cell transplantation	Recent trends in cell biology of aging
Tumor science	Stem cell preservation
Leukemia's: antileukemic drugs	Stem cell therapy for diabetes
Nanotechnology: stem cells and cancer	Stem cell therapy for osteoarthritis
Apoptosis and disease
