

# CALL FOR PAPERS

**ICSIM 2020**  
**Oct 29-30, 2020**  
**Los Angeles, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSIM 2020 : International Conference on System Information Modelling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of System Information Modelling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

System information modelling	Procurement and construction
System information models	Asset management
Digital representations of connected systems	Software
Modeling approaches in information engineering	Relational mapping
Information levels and frameworks	Data warehousing
Conceptual modeling	Meta-modeling
Data modeling	Electrical instrumentation and control
Object reference and single-valued attributes	Power and communication systems
Multi-valued attributes	Information modeling and relational databases
Design
