

CALL FOR PAPERS

ICTMMS 2020
Oct 29-30, 2020
Los Angeles, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTMMS 2020 : International Conference on Traffic Microsimulation Modeling Software is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Traffic Microsimulation Modeling Software. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Traffic microsimulation
Traffic modelling and traffic
microsimulation modelling
Traffic microsimulation models
Microsimulation and analytical
models for traffic engineering
Model development process
Levels of traffic modelling
Strategic models
Highway assignment models
Multi-intersection models

Single intersection models
Traffic microsimulation modeling
software
Agent-based traffic microsimulation
Microsimulation model calibration
Microsimulation model validation
Sensitivity analysis
Model stability
Applications for microsimulation
modelling
Shortcomings of microsimulation
