

CALL FOR PAPERS

ICVOAEC 2020
Oct 29-30, 2020
Los Angeles, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVOAEC 2020 : International Conference on Veterinary Ophthalmology and Animal Eye Care is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Veterinary Ophthalmology and Animal Eye Care. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Veterinary ophthalmology
Physiological studies of animal eye
General pathology of the eye
Naturally occurring ocular disease in veterinary species
Development and congenital abnormalities
Basic diagnostic techniques
Experimental models of animal ocular disease

Ocular manifestations of systemic diseases
Anatomic studies of animal eye
Pharmacological studies of animal eye
Ocular pharmacology and therapeutics
Ocular emergencies
Ophthalmology of exotic pets
