

# CALL FOR PAPERS

**ICCTMC 2020**  
**Oct 08-09, 2020**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTMC 2020 : International Conference on Construction Technology, Mechanics and Computation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Construction Technology, Mechanics and Computation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Construction technology  
Building technology  
Architectural technology  
Construction methods  
Structural engineering, mechanics  
and computation  
Computer integrated construction  
technology  
Construction industry development  
Limitations of construction  
technology  
Computational mechanics

Building materials  
Computer-aided design  
Product modeling in construction  
Robot-oriented design and  
construction  
Automation and robotics in  
construction  
Information-integrated construction  
technology  
Sustainable buildings  
Computer-aided drawing  
Building methods and project  
management
