

# CALL FOR PAPERS

**ICWF 2020**  
**Oct 29-30, 2020**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWF 2020 : International Conference on Woven Fabrics is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Woven Fabrics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Enzymes in textile processing  
Enzyme engineering for textile applications  
Process engineering and industrial enzyme applications  
Industrial enzymes in textile production  
Microbial enzymes in textile processing  
Enzymatic finishing of textiles  
Enzymes in textile wet-processing  
Enzymatic bio-finishing

Developments in application of enzymes for textile processing  
Practical aspects of handling enzymes  
Enzymes in textile chemical processing  
Developments in the applications of enzymes for cotton textile processing  
Some other potential applications of enzymes in textile processing  
New prospects in enzyme applications  
Immobilized enzymes in textile industry
