

CALL FOR PAPERS

ICACM 2020
Nov 05-06, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACM 2020 : International Conference on Advances in Centrifuge Modeling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Centrifuge Modeling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geotechnical centrifuge modeling
Principles of centrifuge modeling
Typical applications
Reason for model testing on the centrifuge
Scaling laws

Dynamic problems
Diffusion problems
Scaling of other quantities
Value of centrifuge in geotechnical earthquake engineering
Verification of numerical models
