

CALL FOR PAPERS

ICAEG 2020
Nov 05-06, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEG 2020 : International Conference on Advanced Engineering Geology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Engineering Geology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering geology
Geospatial analysis and geologic mapping
Engineering mitigation of volcanic geohazards
Earthquake and structural engineering
Spatial analysis and remote sensing
Soil and rock mechanics
River-bank stability and sediment dynamics
Geological and geotechnical engineering
Soil sampling recovery techniques

Remote Sensing for earth sciences applications and GIS
Earthquake engineering
Geoprofessions
Geotechnics
Geotechnical engineering
Geotechnical investigation
Hydrogeology
Mining engineering
Petroleum engineering
