

CALL FOR PAPERS

ICCPES 2020
Nov 05-06, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPES 2020 : International Conference on Cyber-Physical Energy Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyber-Physical Energy Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hybrid modeling and simulation
Co-simulation of multi-domain systems
Ontologies for energy systems
Applications of cyber-physical energy systems
Distributed algorithms and control

Standards in interfacing components
Formal languages for energy systems
Smart grid modeling
Smart cities modeling
Design of simulations/experiments
