

CALL FOR PAPERS

ICDC 2020
Nov 05-06, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDC 2020 : International Conference on Digital Currencies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Currencies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Implications for financial markets
of the rise of artificial
intelligence, big data and
crypto-assets, and the
macroeconomic outcomes
Technological innovations in
financial and payment systems:
implications for financial
intermediation
Consequences of digitalization for
financial stability, monetary
transmission and the conduct of
monetary policy
Central bank digital currencies:
pros and cons

How central banks and financial
regulators might respond to recent
financial innovations
Big data and consumer protection in
the financial sector
Financial innovation and new
funding models
Technology and financial inclusion
