

CALL FOR PAPERS

ICEVBT 2020
Nov 05-06, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEVBT 2020 : International Conference on Electric Vehicles and Battery Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electric Vehicles and Battery Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Electric vehicles
- Basics of electric vehicles
- Experimentation
- Reintroduction
- Electricity sources
- Connection to generator plants
- Onboard generators and hybrid EVs
- Onboard storage
- Lithium-ion battery
- Electric motor
- Vehicle types
- Ground vehicles
- Plug-in electric vehicle

- Hybrid electric vehicles
- On- and off-road EVs
- Railborne electric vehicles
- Space rover vehicles
- Airborne electric vehicles
- Seaborne electric vehicles
- Electrically powered spacecraft
- Energy and motors
- Properties of electric vehicles
- Components
- Energy sources
- Issues with batteries
- Efficiency
