

# CALL FOR PAPERS

**ICMEAN 2020**  
**Nov 05-06, 2020**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEAN 2020 : International Conference on Mechanical Engineering Acoustics and Noise is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechanical Engineering Acoustics and Noise. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustics and aeroacoustics  
Acoustical measurements and instrumentation  
Acoustical Oceanography  
Acoustics and Dynamics  
Acoustics and Mechanical Vibration  
Acoustics and Noise Control  
Acoustics, Aerodynamics and Aeroelasticity  
Acoustics and Vibrations  
Aerodynamics  
Aeroelasticity  
Applications to airframes, jet engines and rockets  
Animal Bioacoustics  
Architectural Acoustics - Room and Building Acoustics

Biomedical Acoustics  
Communication Acoustics  
Computational Ocean Acoustics  
Education in Acoustics  
Electroacoustics and Audio Engineering  
Engineering Acoustics  
Environmental Acoustics and Community Noise  
Fluids, Acoustics and Vibration  
Mechanical Acoustics  
Musical Acoustics  
Noise: Sources and Control  
Numerical Techniques  
Physical Acoustics
