

CALL FOR PAPERS

ICMFE 2020
Nov 05-06, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMFE 2020 : International Conference on Marine and Freshwater Environments is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine and Freshwater Environments. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ocean Observation and Pollution
Mitigation
Marine Oil Spill Response and
Countermeasures
Oil Spill Environmental Forensics
and Chemical Fingerprinting
Subsurface Contamination and
Remediation
Environmental and Marine
Biotechnology
Persistent and Emerging
Contaminants
Water and Wastewater Treatment and
Utility Management
Water Management in Harsh and
Arctic Environments

Environmental Modeling, Risk
Assessment and Decision Making
Watersheds, Wetlands and Estuaries
Management
Coastal Engineering and
Infrastructure Sustainability
Marine Resource Management and
Sustainable Development
Climate Change, Energy Systems and
Emission Reduction
Policies on Water Management and
Environmental Sustainability
Water Safety and Public Health
