

# CALL FOR PAPERS

**ICEAORTPPAA 2020**  
**Nov 05-06, 2020**  
**Cape Town, South Africa**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEAORTPPAA 2020 : International Conference on Evolutionary Antenna Optimization and Real Time Process of Phased Antenna Arrays is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Evolutionary Antenna Optimization and Real Time Process of Phased Antenna Arrays. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Evolutionary algorithms  
Heuristic optimization methods  
Hybrid optimization algorithms  
Antenna design  
Antenna array design  
Antenna optimization tools

Virtual beam steering  
Real time process of phased antenna arrays  
Equivalent circuit theory  
Parallel and GPU processing  
Antenna applications
