

CALL FOR PAPERS

ICWETT 2020
Nov 05-06, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWETT 2020 : International Conference on Wireless Energy Transmission Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wireless Energy Transmission Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless energy transmission
Field regions
Near-field / non-radiative
techniques
Non-radiative technologies
Inductive coupling
Resonant inductive coupling
Capacitive coupling

Resonant capacitive coupling
Magnetodynamic coupling
Far-field / radiative techniques
Microwaves and lasers
Atmospheric plasma channel
coupling
Energy harvesting
Efficiency of wireless energy
transmission
