

CALL FOR PAPERS

ICEA 2020
Nov 26-27, 2020
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEA 2020 : International Conference on Environment and Antibiotics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environment and Antibiotics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Discovery of new classes of
antibiotics and natural products
from the environment
Biodiversity of producer
microorganisms
Antibiotic resistance genes in both
pathogenic and non-pathogenic
bacteria and their mechanisms of
dissemination in the environment

Resistome
Environmental DNA
