

# CALL FOR PAPERS

**ICCCN 2020**  
**Nov 19-20, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCN 2020 : International Conference on Carbon Composites and Nanocomposites is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Carbon Composites and Nanocomposites. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Carbon Composites and Carbon Science  
Composites with Carbon Fibers, Nanofibers, and Nanotubes  
Activated Carbon Fibers and Nanofibers  
Ceramic Fibers Made From Carbon Fibers  
Carbon Fiber/Nanofiber/Nanotube Assemblies  
Structure and Properties of Carbon Fiber Composites  
Coating and Joining of Composites  
Hybrid Composites  
Recycling and Reusing of Carbon Composites  
Mechanical Testing Methodology  
Applications of Carbon Fibers, Nanofibers, and Nanotubes  
Polymer-Matrix Composites

Polymer-Matrix Composites and Polymer Types  
Glass Transition and Melting of Polymers  
Fiber-Polymer Bonding Effects  
Electrical Resistance Measurement  
Methodology for Carbon Fiber  
Polymer-Matrix Composites  
Continuous Fiber Laminates  
Interlaminar Interface  
Deicing and Antiicing  
Woven Fiber Composites  
Microscale Composites, Short Fiber Composites and Continuous Fiber Skeletal Composites  
Carbon Nanofiber Composites and Carbon Nanotube Composites  
Hybrid Composites  
Fabrication of Carbon Fiber  
Polymer-Matrix Composites
