

CALL FOR PAPERS

ICGSGERTS 2020
Nov 19-20, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGSGERTS 2020 : International Conference on Geological Sciences, Geological Engineering and Regional Tectonic Setting is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geological Sciences, Geological Engineering and Regional Tectonic Setting. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geological engineering
Regional geology
Geological study
Regional setting
Regional tectonic setting
Geomorphology
Large-scale regions
Geologically significant boundaries
Sedimentary rocks
Sedimentary basin system
Regional geography
Reservoir management
Analysis procedures in fractured reservoirs

Analysis of anisotropic reservoirs
Geologic analysis
Structural features, and surface forms
Seismic and sequence stratigraphic analysis
Structural geology
Measurement conventions
Plane, fabric, fold and deformation conventions
Stereographic projections
Rock macrostructures
Rock microstructures
Kinematics
Stress fields
Computer simulations
