

CALL FOR PAPERS

ICNSAHE 2020
Nov 19-20, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNSAHE 2020 : International Conference on Narrow-Spectrum Antibiotics and Health Economics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Narrow-Spectrum Antibiotics and Health Economics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Define the qualities of narrow spectrums and the biological and epidemiological advantages that can be achieved in promoting their development and use over those with a broader spectrum of activity
Summarize our experience with existing narrow spectrums will be explored at the evolutionary and clinical level

Explore the ways in which we can optimally encourage the necessary research and development of such products, looking across the variety of strategies, comparing the attributes of schemes required to bring them to market
Examine the role of such products within stewardship policies and how we can optimize their use to prolong the efficacy of antibiotics overall
