ICONE 2020
Nov 19-20, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICONE 2020 : International Conference on Oxide Nanomaterial and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Oxide Nanomaterial and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Recent advances in oxide nanostructures, oxide nanoparticles and nanostructures, with complex oxide/metal, oxide/surface, and oxide/organic interfaces
Applications of oxides nanomaterials for electronics devices such as RRAM, transistors, photodetectors, etc.
Hybrid materials, including oxides nanomaterials and their applications in energy storage devices

Graphene/oxides composites for electronics, energy storage/conversion, sensors
Recent advances of oxides nanomaterials for environmental and biomedical applications
