

CALL FOR PAPERS

ICPPAP 2020
Nov 19-20, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPPAP 2020 : International Conference on Plant Protection and Agrochemical Products is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Plant Protection and Agrochemical Products. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Sustainability of crop production, processing and consumption
- Classes of plant hormones
- Hormones and plant propagation
- Effects of plant hormones and other agrochemicals
- Agricultural biotechnology
- Field crops
- Land and water management
- Technology and sustainable agriculture best practices
- Private and public sectors collaboration in agriculture
- technology development
- Climate change impacts, mitigation and adaptation
- Renewable energy sources and sustainable agriculture
- Resiliency of agriculture crops with climate change
- Fruits and citrus
- Greenhouses and horticulture
- Agricultural buildings
- Agricultural machinery
- Fertilisers and chemicals
- Irrigation and water management
- Plants, seeds and propagation materials
- Plant protection and fertilization
- Post harvest treatment
- Nanotechnologies in agriculture
- Food price volatility and market instability
- Animal conservation and sustainability
- Livestock, dairy farming and small ruminants
- Veterinary and feeding system
