

CALL FOR PAPERS

ICGMPRD 2020
Nov 11-12, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGMPRD 2020 : International Conference on Good Manufacturing Practice and Recent Developments is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Good Manufacturing Practice and Recent Developments. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing engineering
Manufacturing practices
Modern developments
Modern tools
Mechanics
Automation
Robotics
Good manufacturing practice
Current manufacturing practices
Agricultural practices
Laboratory practices
Clinical practices
Regulatory practice

Distribution practice
Transportation practice
Statics and dynamics
Research, design and development of systems
Processes, machines, tools, and equipment
Raw materials
Strength of materials and solid mechanics
Instrumentation and measurement
Engineering design and graphics
Circuit analysis
Identify the most cost-effective material handling
Develop and implement fabrication processes for nano-/micro-devices
Develop the best assignment of machines and equipment
