

CALL FOR PAPERS

ICABSBGT 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABSBGT 2020 : International Conference on Animal Biosciences, Selective Breeding and Gene Technologies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Animal Biosciences, Selective Breeding and Gene Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Animal biosciences

Selective breeding

Artificial selection

History

Animal breeding

Inbreeding

Linebreeding

Outcrossing

Selective breeding in aquaculture

Quality traits in aquaculture

Finfish response to selection

Salmonids

Channel catfish

Shellfish response to selection

Oysters

Penaeid shrimps

Aquatic species versus terrestrial livestock

Advantages and disadvantages

Domestication of animals

Evolutionary physiology

Behavioral genetics

Growth rate

Survival rate

Meat quality

Age at sexual maturation

Fecundity
