

CALL FOR PAPERS

ICAECD 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAECD 2020 : International Conference on Architectural Engineering and Coastal Defences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Architectural Engineering and Coastal Defences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Architecture, Building,
Construction, Infrastructure and
Environment
Advances in Composite Materials
Computational Mechanics
Foundation and Retaining Walls
Slope Stability
Soil Dynamics
Soil-Structure Interaction
Pavement Technology
Tunnels and Anchors
Site Investigation and
Rehabilitation

Ecology and Land Development
Water Resources Planning
Environmental Management
Earthquake and Tsunami Issues
Safety and Reliability
Geo-Hazard Mitigation
Case History and Practical
Experience
Geotechnique, Environment, Building
and Construction Materials
Building and Construction: Bridges,
High-rise Buildings, Dams, Civil
Engineering Structures, Silos,
Highway Pavements, Tunnels, Water
Containment Structures, Sewers,
Roofing, Housing, Coastal Defences
The Materials and Technology:
Cement, Concrete Reinforcement,
Bricks and Mortars, Additives,
Corrosion Technology, Ceramics,
Timber, Steel, Polymers, Glass
Fibres, Recycled Materials and
By-products, Sealants, Adhesives,
Composite Materials, Nanomaterials
