

CALL FOR PAPERS

ICAGEHA 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGEHA 2020 : International Conference on Atmospheric Greenhouse Effect and Human Activities is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Atmospheric Greenhouse Effect and Human Activities. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Atmospheric greenhouse effect
History
Mechanism
Greenhouse gases
Atmospheric greenhouse gas concentrations
Role in climate change
Real greenhouses
Bodies other than earth
Radiatively active gases
Atmosphere's temperature
Global warming
Human activities

Earth's natural greenhouse effect
Science and policy
Scientific issues surrounding the greenhouse effect
Temperature scales
Forms of heat transfer
Electromagnetic spectrum
Planck law
Stefan-boltzmann law
Inverse square law
Reflectivity or albedo
Solar (shortwave) and terrestrial (longwave)
Radiation
