

CALL FOR PAPERS

ICBIHD 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBIHD 2020 : International Conference on Bacterial Infection and Host Defense is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bacterial Infection and Host Defense. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bacterial effectors and host defense signaling
Genetic regulation of bacterial virulence
Trafficking of intracellular bacterial pathogens
Structural biology of bacteria-host interaction

Pore forming toxins and large exotoxins
Autophagy in host defense against infection
Inflammasome in host defense against infection
Emerging concepts in virulence mechanism and cytosolic innate immunity
