

CALL FOR PAPERS

ICBPSMS 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBPSMS 2020 : International Conference on Business Process Simulation, Models and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Business Process Simulation, Models and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Business model simulation
Simulation analysis of strategic
business decision models
Business process modeling
Workflow management
Models, methods and systems
Current simulation approaches
Operational decision support
Simulation techniques
Modeling software
Scenario simulations
Numeric simulations
Economic forecasting
Investment, marketing, product
introduction and operational
policies

Production planning, quality
assurance and supply chain
management
Operations management
Planning and design of production,
distribution and service systems
Business analysis
Spreadsheet software
Spreadsheet automation
Modeling resources
Preparing the simulation input
Specifying sequence flow branch
condition
Specifying resource processing time
and waiting time
Running a simulation
Analyzing simulation output
Business analytics
