

CALL FOR PAPERS

ICEAST 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEAST 2020 : International Conference on Energy Aware Systems and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Energy Aware Systems and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Optimization Techniques for
Efficient Energy Consumption
Economic Models of Energy
Efficiency
Greener Systems Planning and
Design
Energy Monitoring
Virtualization for Reducing Power
Consumption
Scheduling and Switching Power
Supplies
Energy Profiling and Measurement

Renewable Energy Resources
Embedded Sensor Networks
Energy Management Systems
Driving innovation in energy
storage
Virtual Power Plants
Evolutionary Algorithms in Energy
Applications
