

CALL FOR PAPERS

ICFBB 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFBB 2020 : International Conference on Forest Biology and Biotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Forest Biology and Biotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Forest biology
- Forest physiology
- Freezing injury and resistance in trees
- Physical and biological limits to tree height
- Causes of tree mortality by drought
- Forest genetics
- Molecular transmission and population genetics
- Landscape genomics
- Quantitative genetics and genomics
- Tree breeding
- Forest pathology and entomology
- Forest diseases
- Forest insects
- Forest diseases and insects
- Forest ecology
- Community ecology
- Fire ecology / disturbance
- Forest biogeography
- Ecosystem ecology
- Principles and concepts of silviculture
- Stand dynamics
- Forest management
- New forestry
