

CALL FOR PAPERS

ICFMMM 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFMMM 2020 : International Conference on Functional Magnetic Molecular Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Functional Magnetic Molecular Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Transition metal chemistry
Lanthanides and actinides
Multifunctionality
Magnetism
Nanomagnets
Ferromagnets

Bottom-up approach
Crystal engineering
Photo-switching
Molecular magnetism
Spin crossover materials
Magnetic coordination materials
