

CALL FOR PAPERS

ICIIC 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIIC 2020 : International Conference on Information and Intelligent Computing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Information and Intelligent Computing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computational Intelligence
Artificial Immune Systems
Autonomy-Oriented Computing
Biological Computing
Coevolutionary Algorithms
Evolutionary Computation
Fuzzy Systems
Intelligent Agents and Systems
Machine Learning
Molecular Computing
Neural Computing
Probabilistic Reasoning
Reinforcement Learning

Swarm Intelligence
Support Vector Machine
Unsupervised Learning
Natural Intelligence
Informatics models of the brain
Cognitive processes of the brain
Internal information processing mechanisms
Theories of natural intelligence
Intelligent foundations of computing
Descriptive mathematics for Natural Intelligence
Abstraction and means
Ergonomics
