

# CALL FOR PAPERS

**ICMMSEA 2020**  
**Nov 02-03, 2020**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMMSEA 2020 : International Conference on Machinery, Materials Science and Engineering Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Machinery, Materials Science and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

|   |                                    |
|---|------------------------------------|
| Mechanism theory & Application                          | Machinery Manufacturing Technology |
| Mechanism and Machine Composition Principle             | Mechanical transmission control    |
| Mechanism Kinematics and Dynamics                       | Mechanical Engineering             |
| Robot and Mechanics                                     | Facilities Planning and Logistics  |
| Transmission Mechanism                                  | System Application                 |
| Mechanical Testing Theory and Technology                | The use of hydraulic technology    |
| Mechanical Sensor Technology and Testing Instrument     | The use of hydraulic servo system  |
| Mechanical Manufacturing Process Monitoring and Control | Electric drive control             |
| Applied Machine   | Programmable Controller            |
| Mechanical Design and Application                       | Applications in Engineering        |
| Electroengineering                                      | Automobile structure               |
| Electronics   | Car Design                         |
| Mechanical Engineering Testing                          | Automotive                         |
|   | Material Science                   |
|   | Functional Materials               |
