

CALL FOR PAPERS

ICNB 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNB 2020 : International Conference on Nanobiophotonics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanobiophotonics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Novel approaches in
ultrahigh-resolution nanoimaging
and nanoscopy beyond the
diffraction limit in the nanoscale
range
In-vivo cellular/intracellular
nanobiophotonics imaging and
sensing
Single molecule spectroscopy and
imaging
Plasmonic, quantum-dot and
nanoparticle biosensor probes
Nanoparticle-enhanced optical
diagnostics and therapeutics
Advanced cancer nanobiophotonics

Nonlinear ultrahigh-resolution
imaging and diagnostics
Optical manipulation of
nanoparticles
Novel nanobiomaterials engineered
for nanobiophotonics applications
Noninvasive biophotonics methods
for characterizing
nanobiomaterials
Biocompatibility and phototoxicity
of novel nanobiomaterials
