

CALL FOR PAPERS

ICOFFPS 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOFFPS 2020 : International Conference on Organic Farming and Food Production Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Organic Farming and Food Production Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Organic Agriculture	Controlling other organisms
Organic Farming	Livestock
Organic farming systems	Genetic modification
Organic farming methods and standards	World's food security
Organic Farming vs. Conservation Agriculture	Environmental impact and emissions
Organic farming economics	Nutrient leaching
Organic farming externalities	Land use
Organic food	Pesticides
Crop diversity	Food quality and safety
Soil management	Soil conservation
Weed management	Biodiversity
