

CALL FOR PAPERS

ICPDDC 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPDDC 2020 : International Conference on Product Development and Design Considerations is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Product Development and Design Considerations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Product development process
- Product decomposition
- Product life cycle
- Product design
- Product design process
- Design paradigms
- Design evaluation activities
- Design management activities
- Design support tools and methodologies
- Design methodology for usability

- Process control
- Manufacturing processes and design considerations
- Usability and functionality
- Concurrent consideration of product usability and functionality
- Cost estimation
- Market demand
- Materials and innovative product development
- Globalization and the world economy
- Mathematical models for maintainability
- Prediction models for maintenance
