

CALL FOR PAPERS

ICPGF 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPGF 2020 : International Conference on Petrology and Geological Formations is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Petrology and Geological Formations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Petrology
Methodology
Origin, composition, distribution
and structure of rocks
Theory, experiment and modeling
Field methods
Abundance of different rock types
Igneous petrology
Metamorphic petrology
Chemical petrology
Experimental petrology
Sedimentary petrology
Petrography

Phase diagrams
Magma differentiation
Magma diversity
Macroscopic hand-sample or
outcrop-scale description of rocks
Graphic representation of
geological formations
Oceanic intraplate volcanism
Mid-ocean ridge volcanism
Continental flood basalts
Subduction-related igneous
activity
Granitoid rocks
Continental alkaline magmatism
Metamorphism
