

# CALL FOR PAPERS

**ICREER 2020**  
**Nov 02-03, 2020**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICREER 2020 : International Conference on Restoration Ecology and Ecosystem Rehabilitation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Restoration Ecology and Ecosystem Rehabilitation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ecosystem rehabilitation  
Restoration and rehabilitation of degraded ecosystems  
Aquatic ecosystem restoration  
Innovative methods of marine ecosystem restoration  
Sustainability in ecosystem restoration  
Ecosystem rehabilitation and forest regeneration

Conservation biology and restoration ecology  
Soil development and soil heterogeneity  
Species interactions  
Successional patterns  
Theory of rehabilitation and its applications  
Invasion, competitive dominance and resource use
