

# CALL FOR PAPERS

**ICSPC 2020**  
**Nov 02-03, 2020**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPC 2020 : International Conference on Signal Processing and Communications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Signal Processing and Communications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wireless Communications  
Detection and Estimation  
Cooperative Communication  
Adaptive and Array Signal  
Processing  
MIMO and Space-Time Signal  
Processing  
Compressive Sensing & Applications  
Cognitive Radio  
Signal Processing for  
Communications  
Network Coding  
Machine Learning/AI for Signal  
Processing  
Network Information Theory  
Audio, Speech, Image & Video Signal  
Processing  
Sequences & Complexity

Signal Processing Algorithms &  
Architectures  
Source and Channel Coding: Theory  
and Practice  
Ad-hoc and Sensor Networks  
Next Generation Networking, QoS &  
Security  
Multihop and Mesh Networks  
Vehicular Networks  
Biomedical Signal Processing  
Spoken Language Processing  
Underwater Communications and  
Signal Processing  
Optical Communications and Networks  
VLSI for Communication & Signal  
Processing RF Systems for  
Communications  
Systems, Standards and  
Implementations
