

CALL FOR PAPERS

ICWSC 2020
Nov 02-03, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWSC 2020 : International Conference on Web Service Computing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Web Service Computing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Web Service Computing Theory and Models
Business Service Systems Theory and Models
Service Oriented Architecture Models and Systems
Cluster, Grid, Utility and Cloud Computing Models and Systems
Tools and Technologies for Web Service Computing
Web Service Computing Metrics and Standards
Empirical Studies on Web Service Computing

Evaluation and Quality Models of Web Service Computing
Simulations and Developments of Web Service Computing Systems
Qualitative and Quantitative Studies and Analysis on Web Service Systems
Uncertainty Issues and Studies in Web Service Practices and Systems
Web and Business Information Services and Systems
Knowledge and Semantic Approaches
Web and Business Service Domains
Web Service Domain Specific Case Studies and Application Systems
