

# CALL FOR PAPERS

**ICWSQM 2020**  
**Nov 02-03, 2020**  
**San Francisco, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWSQM 2020 : International Conference on Water Safety and Quality Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Water Safety and Quality Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Water safety  
Water safety techniques and technologies  
Recent technologies for water safety  
Biotechnology and water safety  
Chemical engineering for water safety  
Food and water microbiology

Biology and chemistry of water safety  
Rules and regulations for water safety  
Water safety planning for urban water utilities  
Safe water treatment and storage in the home  
Safe water treatment and storage in industrial setting  
Water safety for children and young people
