

# CALL FOR PAPERS

**ICANMAM 2020**  
**Nov 19-20, 2020**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICANMAM 2020 : International Conference on Advances in Numerical Methods and Applied Mathematics is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Numerical Methods and Applied Mathematics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Algebraic Combinatorics  
Algorithmic Graph Theory and  
Combinatorics  
Approximation Algorithms  
Combinatorial Algorithms  
Combinatorial Number Theory  
Combinatorial Optimization  
Computational Biology  
Computational Complexity  
Computational Geometry  
Data Structures  
Design Theory  
Discrete Geometry  
Enumeration

Experimental Algorithm  
Methodologies  
Extremal Combinatorics  
Graph Algorithms  
Graph Drawing  
Graph Theory  
Network Optimization  
Numerical Methods and Applied  
Mathematics  
Online Algorithms  
Parallel and Distributed  
Algorithms  
Parameterized Complexity  
Probabilistic Combinatorics  
Ramsey Theory  
Randomized Algorithms
